

FEBIADI WISNU AKBAR

Software Engineer • Graphic Designer

Pekalongan, Indonesia • rheatkhs@gmail.com • works.mevia.web.id • linkedin.com/in/fbiakbr • github.com/rheatkhs

PROFESSIONAL SUMMARY

Software Engineer & Graphic Designer specializing in building scalable, resilient web applications with a security-first engineering mindset, combined with creative art direction in typography and visual branding. Experienced in architecting secure backend APIs, optimizing modern frontend architectures with Next.js and TypeScript, conducting OWASP-aligned vulnerability assessments, and integrating AI API workflows. Certified in Cybersecurity and Network Administration by Google and KOMDIGI.

WORK EXPERIENCE

Software Engineer — [Dinas Komunikasi dan Informatika](#) 2024 – 2025

Pekalongan, Indonesia

- Architected and developed internal web applications and digital public services with strict security-first principles.
- Implemented secure, performant RESTful APIs and database schemas utilizing PHP (Laravel) and Node.js.
- Conducted web vulnerability triage, OWASP standard mitigation, and input sanitization to harden municipal digital services.
- Collaborated with cross-functional technical teams to streamline and modernize local government web infrastructure.

Front-End Developer — [OFFTHEGRID Development Team](#) 2022 – 2025

Pekalongan, Indonesia

- Led front-end development for creative digital platforms, interactive brand portals, and client web applications.
- Built responsive, accessible user interfaces utilizing Next.js, React, TypeScript, and modern CSS Grid architectures.
- Optimized client-side rendering performance, achieving high Core Web Vitals scores and sub-second First Contentful Paint.
- Integrated RESTful APIs and real-time feeds with seamless error handling and zero cumulative layout shifts.

IT Support & Computer Laboratory Assistant — [Institut Widya Pratama](#) 2020 – 2023

Pekalongan, Indonesia

- Maintained campus local network infrastructure, VLAN configurations, switch routing, and computer workstation readiness.
- Provided technical support and mentored undergraduate students in programming fundamentals, data structures, and networking labs.

EDUCATION

Bachelor of Informatics Engineering (Teknik Informatika) Pekalongan, Indonesia

[Institut Widya Pratama](#) • Specialization: Software Engineering & Cybersecurity

- Relevant Coursework: Software Engineering, Web Development, Network Architecture, Computer Security, Database Systems.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, Python, PHP, Dart, SQL, HTML5, CSS3, SCSS
Frontend:	React, Next.js, Astro, Tailwind CSS, Three.js, WebGL, Vite
Backend & Databases:	Node.js, Express, Laravel (PHP), RESTful APIs, MySQL, PostgreSQL
Security & DevOps:	Vulnerability Assessment, OWASP Top 10, Network Security, Docker, Linux/Unix, Git, GitHub
Mobile & AI:	Flutter, Dart, AI API Integration, Vector Search / RAG Concepts (Qdrant), Prompt Engineering
Design & Creative:	UI/UX Design, Figma, Adobe Photoshop, Typography, Art Direction, Poster Design, Visual Branding

LICENSES & CERTIFICATIONS

Fundamental Cybersecurity — Google & KOMDIGI (ID: 21212830840-389)	Sep 2026
Intermediate Associate Network Administrator — KOMDIGI Digital Talent Academy (ID: 21212088840-3173)	Sep 2026
Fundamental of Associate Network Administrator — KOMDIGI Digital Talent Academy (ID: 21212087840-11249)	Sep 2026
AI Productivity and AI API Integration for Developers — Hacktiv8 Indonesia & Google.org	Sep 2026
#JuaraVibeCoding Study Jam — Google Developer Groups (GDG)	Mei 2026

HONORS & RECOGNITIONS

Certificate of Appreciation (Security Contribution) — PT Giken Kaizen Educenter Apr 2026

- Recognized for responsible vulnerability disclosure, web application security reporting, and defensive remediation support.
